WORK EXPERIENCE

Oasis Infobyte

Python programming Intern

August 2024 - September 2024

Developed and optimized Python projects including a BMI calculator, weather application, and random password generator.

Gained practical experience in Python programming, improving code performance and efficiency.

Code clause

Artificial Intelligence Intern

June 2024 - July 2024

Analyzed complex image data to enhance Image processing models.

Debugged and optimized Python code for real-time image processing.

Conducted thorough testing to ensure accuracy and performance.

EDUCATION

Chebrolu engineering college

Computer science engineering (AI & ML) - 8.3/10

2021 - 2025

Narayana Junior college

Board of Higher secondary education - 902/1000

2019 - 2021

Ntr High school

Board of Secondary education - 9.7/10

2018 - 2019

PROJECT

A Fake Profile Identification in Social Network using Machine Learning and NLP [🔗](#)

2024 - 2025

Designed and implemented a machine learning model to detect fake accounts on social media platforms.

Collected and preprocessed social network data to identify suspicious patterns and behaviors.

Applied classification algorithms to distinguish between real and fake profiles with improved accuracy.

SKILLS

Programming languages: Python, C

Web development: HTML, CSS, JS

Tools and technologies: SQL, Git

Soft Skills: Problem Solving, Communication Skills, Adaptability, Team Collaboration

CERTIFICATE

The Complete 2024 Web Development Bootcamp
